(54) Title: AUTOLOGGING THE PRESENCE OF A WIRELESS LOCAL AREA NETWORK

(57) Abstract: A method and apparatus for automatically logging the presence of a wireless local area network (as illustrated in Fig. 1A) include scanning to detect presence of a wireless local area network WLAN (step 1104), detecting presence of said wireless local area network (step 1103), contacting a base station of said detected wireless local area network to request the location of said base station (step 1102), and receiving the location of the base station of said wireless local area network (step 1101).
